PROFESSIONAL SUMMARY

Computer Science student with strong skills in full-stack web development. Experienced in requirement analysis, SDLC, REST API development, and building scalable web applications. Skilled in writing clean, efficient, and maintainable code while collaborating in team-based development environments.

EDUCATION

Rayat Bahra Institute of Engineering and Nano Technology
B.Tech in Computer Science and Engineering

2023 – Present
Hoshiarpur, Punjab

EXPERIENCE

MERN Stack Training – IBM

2025

RBU, Hoshiarpur

- Worked on requirement gathering and converting specifications into functional web modules.
- Collaborated with developers to design workflows and system logic.
- Developed and tested reusable backend modules using Node.js and Express.js.

PROJECTS

AI Learning Assistant | MERN Stack, Gemini API, JWT

March 2026

- Built a scalable AI-based learning platform with modular backend architecture.
- Designed system workflow for quiz generation, document processing, and AI summarization.
- Integrated REST APIs and performed end-to-end testing before deployment.
- Ensured code maintainability and reusability across modules.

Smart Blood Donor Management System | MERN Stack

Dec 2025

- Designed system architecture for donor management and emergency request handling.
- Developed RESTful APIs with authentication and validation.
- Implemented database design using MongoDB for efficient data retrieval.
- Participated in testing, debugging, and deployment process.

AI Interview Preparation Platform | MERN Stack, Gemini API, JWT

April 2026

- Developed AI-based interview generation system using structured workflows.
- Implemented secure authentication and role-based access control.
- Built scalable backend services with REST API integration.
- Performed system testing and deployment in staging environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Tools: GitHub, VS Code, Postman, Vercel, Netlify, Render

Core Skills: Data Structures & Algorithms, OOPs, DBMS, REST APIs

ACHIEVEMENTS

- Solved 350+ problems on LeetCode focusing on DSA and problem-solving.
- Solved 100+ problems on GeeksforGeeks covering algorithms and data structures.

CERTIFICATIONS

- SQL Basics Certification – HackerRank
- Full Stack Web Development Training – IBM
