PROFESSIONAL SUMMARY

I am a Computer Science student with solid skills in full-stack web development. I have experience in requirement analysis, SDLC, REST API development, and building scalable web applications. I write clean, efficient, and maintainable code while working in team environments.

EDUCATION

Rayat Bahra Institute of Engineering and Nano Technology 2023 – Present
B.Tech in Computer Science and Engineering
Hoshiarpur, Punjab

EXPERIENCE

MERN Stack Training – IBM 2025
RBU, Hoshiarpur

- Built and deployed full-stack MERN applications using MongoDB, Express.js, React.js, and Node.js.
- Developed REST APIs, integrated databases, and created responsive user interfaces.
- Used Git, GitHub, Netlify, and Render for version control and application deployment.

PROJECTS

AI Learning Assistant — MERN Stack, Gemini API, JWT March 2026

- Built a scalable AI-based learning platform with a modular backend structure.
- Designed a system workflow for quiz generation, document processing, and AI summarization.
- Integrated REST APIs and performed end-to-end testing before deployment.
- Ensured code maintainability and reusability across modules.

RecipePi – Recipe Search Platform — React.js, Recipe API, Tailwind CSS April 2026

- Developed a responsive recipe search platform where users can look for recipes using dish names or ingredients.
- Integrated a Recipe API to show recipe details, including ingredients, cooking instructions, preparation time, and nutritional information.
- Implemented a text-to-speech feature that reads cooking instructions aloud for a hands-free cooking experience.
- Designed a modern, responsive user interface using React.js and Tailwind CSS for easy navigation on desktop and mobile devices.

AI Interview Preparation Platform — MERN Stack, Gemini API, JWT April 2026

- Developed an AI-based interview generation system using structured workflows.
- Implemented secure authentication and role-based access control.
- Built scalable backend services with REST API integration.
- Performed system testing and deployment in a staging environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Tools: GitHub, VS Code, Postman, Vercel, Netlify, Render

Core Skills: Data Structures & Algorithms, OOP, REST APIs

ACHIEVEMENTS

- Solved over 400 problems on LeetCode focusing on data structures and problem-solving.
- Solved more than 100 problems on GeeksforGeeks covering algorithms and data structures.

CERTIFICATIONS

- SQL Basics Certification – HackerRank
- Full Stack Web Development Training – IBM
